8th August 1915

The President
University of Toronto

Dear Sir,

I wrote to you rather more than ten days ago stating that I had heard indirectly that the award of the Fellowships offered last spring had been made. I have not received confirmation of this report but should be very glad to know one way or the other.

I enclose a letter I received from Dr Lehmann yesterday which will explain why I write again. Possibly my former note may have been lost in postal strikes in transit, and as you will see from the enclosed letter the delay is causing inconvenience in Alberta.

Yours truly
Norman A. Clark

August 10th, 1918

Mr. Norman A. Clark,
24 Hitchcock Hall,
University of Chicago,
Chicago, Ill.

Dear Sir:

I do not understand why you have not received either of the two previous letters sent to you. The only address we had from your application was the University of Alberta to which the first letter was sent. Then your letter ten days ago was replied to by the Secretary of the Graduate Board telling you again that the Fellowship had been awarded to you for the next academic year.

To-day I am telegraphing you and stating that the Fellowship is awarded you. I hope that this clears up the difficulty. We have had a strike here of Toronto postmen, but you should have received the letter long before this.

Yours very truly,

President's Secretary.
